C. Nut	1

Setup

Secure the handle to the impact wrench with the nut, so the assembled tool looks like **Figure 1**.

If you need help with your new pneumatic tool, call our Tech Support at: (570) 546-9663.

Operation

For best performance, connect your wrench to the air supply with a 1/2" air line and fittings. Slide the forward/reverse switch left or right to make the wrench turn clockwise or counterclockwise. Adjust the throttle dial to increase or decrease torque.

Maintenance

The impact wrench **MUST** be regularly lubricated with 3-4 drops of air tool oil directly into the air fitting before each use. For best results, we recommend using an in line filter, lubricator, and regulator, as shown in **Figure 2**.
